Subject: Land use maps showing which bldgs in residential vs industrial/commercial per RODs

This map shows from the RODs which bldgs in residential areas(dark green) and which in industrial/commercial (light green and dark blue).

City eventually wanted to request dark blue areas to be changed to residential also, but the current RODs show those are commercial/industrial, so bldgs in those areas are expected to be cleaned to industrial/commercial levels

Subject: as we discussed

Consistent with RODs

Dark blue should be light green
